- Specially-designed accessories

Easy to operate

- It produces a sound to inform you when the meal is ready

Nine different healthy varieties

- Nine food menus for more healthy varieties

PHILIPS
sense and simplicity

Highlights

12-hour Keep-warm function

Use the Keep-warm function to keep rice or dishes warm for long periods of up to 12 hours, whilst maintaining the food's nutrition and taste. When the cooking process finishes, the rice cooker automatically switches to Keep-warm mode.

24-hour preset timer

There is also a timer function to preset when you want the meal cooked. Press the 'hour' button once to advance 1 hour, and the 'minute' button to advance 10 minutes. The timer function can be preset up to 24 hours in advance to ensure you can enjoy your meals exactly when you want them.

3D heating system

There is heating system surround the rice cooker, including heater assembly on the top, heater assembly all around and main heater assembly on the bottom. 3D heating system for even heating, more effective warm keeping and better baking result

Audio prompting

It produces a sound to inform you when the meal is ready.

Child lock

You can lock the control panel by pressing down on the 'Rice' button for three seconds. This

automatically locks the operation panel, ensuring there is no misuse from children during the cooking procedure. Press the 'Rice' button for another 3 seconds to unlock it.

Computerized control

Smart heating and temperature control for optimum results

Digital display

The extra-large digital display clearly indicates the cooking function and preset timer. The six stages of cooking are displayed to aid the rice cooking procedure and manage your time more accurately.

Nine food menus

There are nine selected cooking menu varieties including Quick cook, Ultra-quick cook, Small portions of rice, Reheating, Congee/Soup, rice soup, Cakes and Clay pot rice. The intelligent cooking process enables you to cook great tasting rice with ease.

Specially-designed accessories

Specially-designed rice spatula and ladle for convenience.

Thick 2.0-mm 5-layer inner pot

The specially-designed inner pot offers more effective heat conduction. It brings you the traditional "big pot" taste. The cutting-edge extra-thick 2.0-mm, 5-layer golden inner pot ensures even heating. 1. The super-rigid crystal coating is non-stick and anti-scratch, making it easy to clean and highly durable; 2. The rose-gold base effectively increases the heat during cooking; 3. The extra-thick alloy pot conducts heat evenly; 4. The resin coating protects the alloy and makes the pot firmer and more durable; 5. The black outer coating helps to retain heat and keeps your rice warm and fresh.
